Community Association
websites...

MyHOASite

Easy To Use CMS

Our content management system (CMS) makes it easy to create webpages on the fly.

Cross-devices ability

Communicate with your community across any device from anywhere.

Website Solutions for Community Associations

✔ **Single Family Community Websites**
Websites for managed or non-managed
single family homeowner associations

✔ **Townhomes Community Websites**
Websites for managed or non-managed townhome
homeowner associations

✔ **Condominium/Co-op Community Websites**
Websites for managed or non-managed
condominium or co-op homeowner associations

Menu Driven User Friendly Interface

The website interface is user friendly, and easy to understand and navigate. It enables communities to communicate information to their homeowners in a secure environment and easily pass the website administration on to new board members as necessary. Homeowners can provide emergency contact information, download documents, see upcoming events, make online amenity reservations, or contact the management office for assistance along with numerous other options. The possibilities are simple and endless.

Let's build a great community website together.

01. **Use your domain or ours**

You can use your domain name or create a sub domain with ours. **https://yourorganization.myhoa.site**

02. **Web Design**

Select one of our templates or have a custom template created.

03. **Select Your Modules**

Our modular design enables you to select the modules that work best for your community.

04. **Submit your community information**

Upload community documents, photos, videos, create webpages, events, etc.

MODULAR DESIGN

Our modular design enables you to tailor a solution that works best for your community
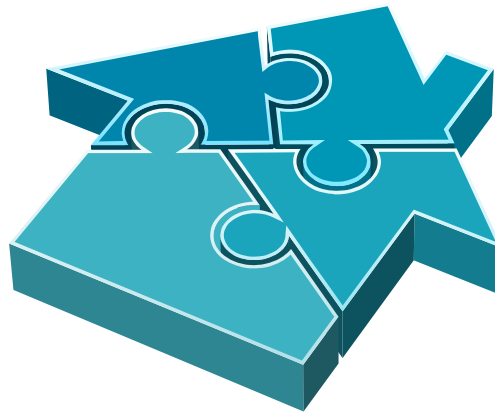

Board Only Modules
01

Modules designed to manage board only activities.

Management Modules
02

Modules designed to manage members, content, information and digital assets.
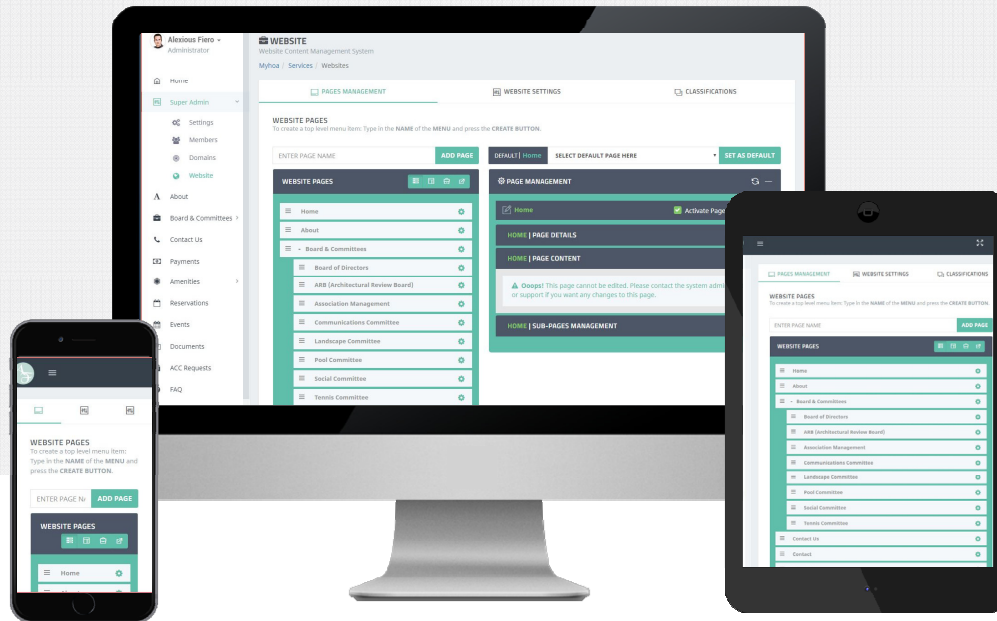

Communication Modules
05

Modules designed to enhance community communications

Social Modules
04

Modules that transform your website into a social network.

Security Modules
03

Modules designed to help make your residents safer and secure.

RESPONSIVE DESIGN

DEVICE
friendly

Responsive design is an approach to web page creation that makes use of flexible layouts, flexible images, and cascading styles. The goal of responsive design is to build web pages that detect the visitor's screen size and orientation and change the layout accordingly.
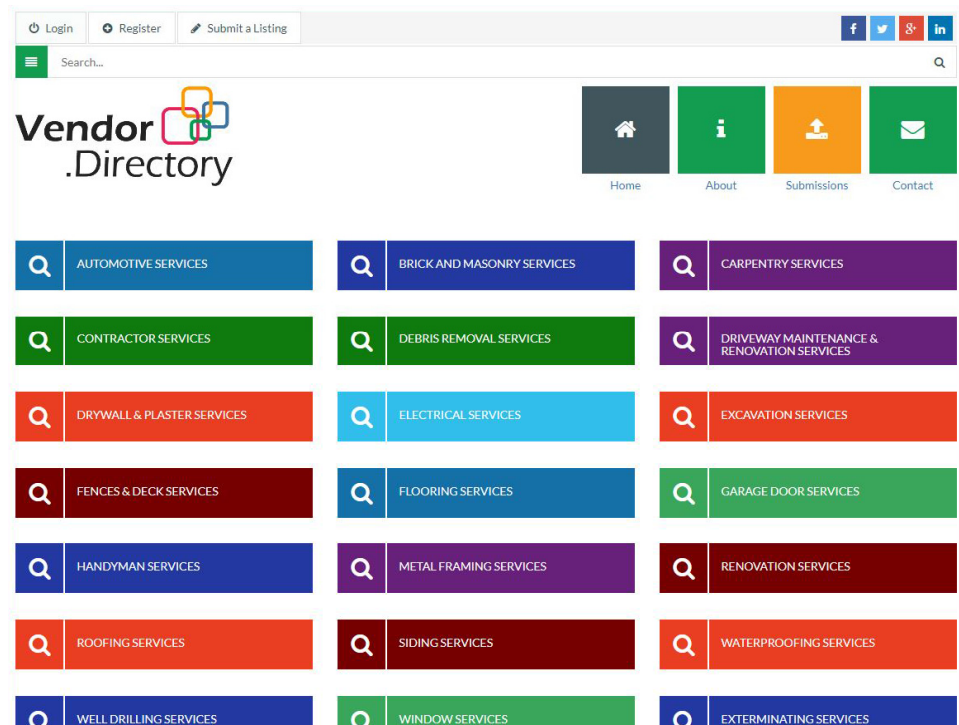

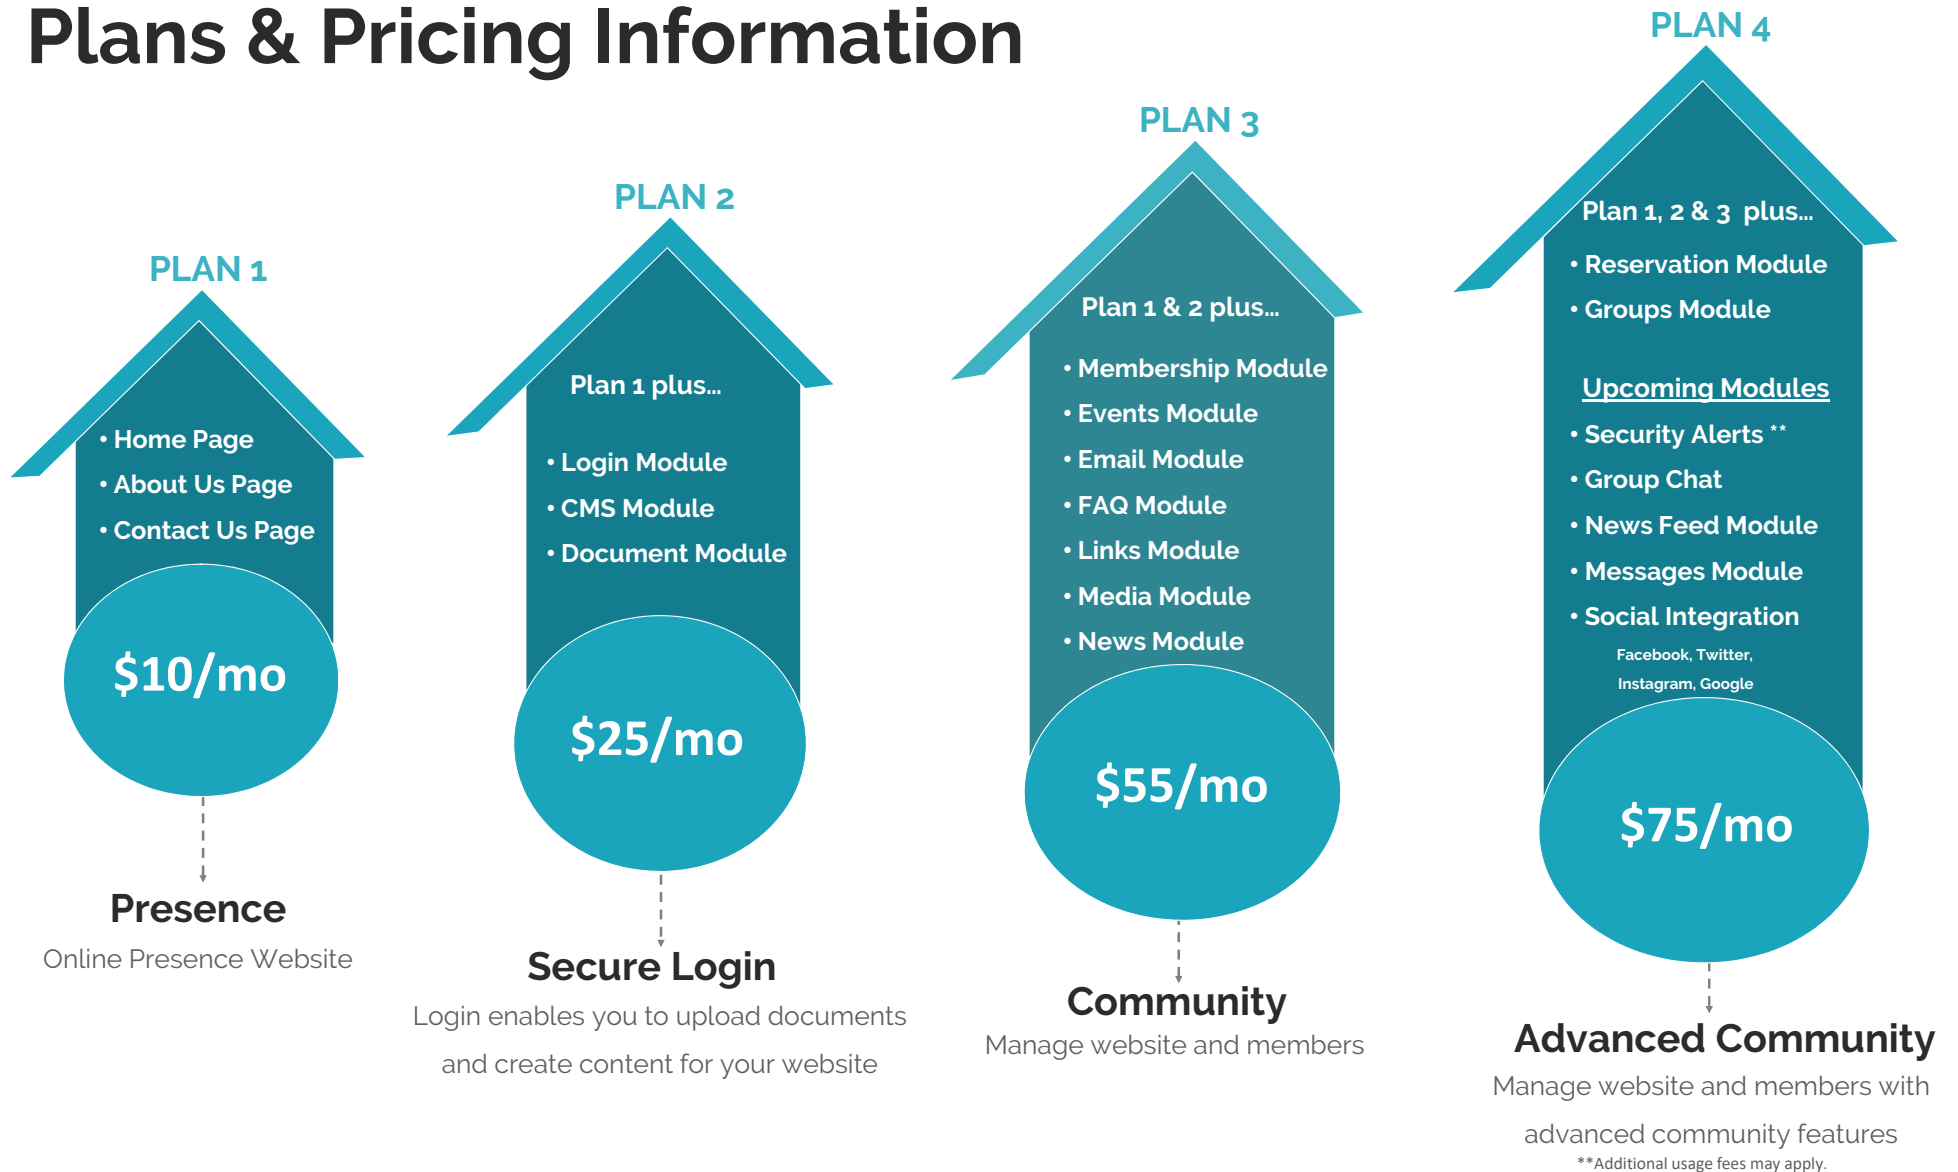

Vendor Directory

Access vendors near you

HOA Specific Vendor Ratings and Referrals

Vendor Directory is composed of vendors that work with homeowners and community management companies, they are rated by homeowners and community managers.
